Description

Sky RC e680 AC/DC 80W Battery Charger-Discharger for LiPo, LiFe, LiHV, NiMH and Pb Batteries

The SkyRC e680 Universal Charger is easy to use and at the same time offers a variety of features.

All popular battery types such as LiPo/LiIon/LiFe/LiHV/NiMH/NiCd/Pb and the system battery of the DJI Mavic are supported by the microprocessor controlled SkyRC e680 (cable for DJI Mavic NOT Included).

All common loading and unloading modes such as charge, balance charge, fast charge, storage and discharge are mastered. Especially in the Pb program, the charger offers an AGM and cold charging mode. Also DJI Mavic batteries are supported with their own mode.

In addition, the e680 can directly supply consumers such as tyre sander, LED pit lights, motor testers etc. with 13.8V and 80W max power via the power supply function.
